

# Virtual bar code

## Quick guide to the use of the virtual bar code:

1. *Paint the virtual bar code* by double-clicking it with the left mouse button or by keeping the left mouse button pressed down and moving the cursor past the code.
2. *Copy the virtual bar code* by pressing Ctrl+C on the keyboard or by clicking the right mouse button and selecting Edit > Copy.
3. *Log in to your web bank* and select the payment function.
4. When you pay the invoice, select "Viivakoodilla maksaminen" ("payment by the use of bar code") or "Lue viivakoodi" ("Read bar code") or another corresponding function and move the cursor to the empty bar code field.
5. *Insert the virtual bar code* into the field by pressing Ctrl+V on the keyboard or by clicking the right mouse button and selecting Edit > Paste (press Enter if necessary), and the payment details will be automatically filled in.

Note: Some web banks require that the field indicating the recipient of the payment ("Maksun saaja") should be filled in separately.
